Product Management Bulletin:
000-621

Announcing: EOL Notice for 1537L, 1739L, 2243L, and 2244L Open Frame Touchmonitors

Obsolete Product Information

Please be advised that all parts in the 1537L, 1739L, 2243L, and 2244L open frame product families are being phased out and replaced by the new 90-Series open frame touchscreen monitors. Many parts have previously been moved to EOL in preparation for this transition. This notice affects all remaining active part numbers for these families. While we make every effort to minimize product changes, at times product refreshes are needed to keep products current with new technologies and features. When this occurs, we try to offer a suitable replacement product with equal or better specifications. Please see table below for suggested replacement parts.

Obsolete and Replacement Products

Listed below are the affected Elo part numbers and the recommended replacement parts.

Obsolete Part Number	Product Description	Recommended Replacement Part Number	Replacement Description
E001122	ET1537L-2UWA-0-MT-ZB-NPB-G	E176164	ET1590L-2UWA-0-MT-ZB-NPB-G

12 Month Transition Plan – 9 Months last time buy + 3 Months last time shipment

When products are obsolete, every effort is made for a smooth transition:

- Last-time buys for the 1537L, 1739L, 2243L, and 2244L models will be accepted until **February 27th, 2017** with last-time shipments made by **May 27th, 2017**
- Please note that it is possible that some of these models such as the Infrared and SCAP units cannot be ordered as their components may have gone EOL already. Please consult with your sales representative for specific part numbers and details
- Please work closely with your Elo sales representative on specific ongoing run-rate projects to develop a transition plan to the new units.
