

THE STELLAR SERIES KIOSK

COMBINING STELLAR DESIGN AND PERFORMANCE

The Posiflex brand is best known for outstanding design and reliability in Point of Sale terminals and components. In 2016, Posiflex acquired KIOSK to leverage the best of both companies, resulting in a new self-service platform that merges superior kiosk design with highly durable Posiflex transaction components.

The enclosure features an All-in-One PC and PCAP touchscreen with a minimalist bezel, providing a contemporary and sophisticated user interface presentation. The Stellar Series is available as a free-standing pedestal or a countertop, providing modular deployment options in the same standardized family. The enclosure can be customized with preferred components common to most self-service transactions including EMV payment devices, scanners, receipt / ticket printers, and more. As with all KIOSK designs, the Stellar is configured for easy maintenance with hinged doors and simple component access. ADA compliant design ensures self-service access to all your valued customers.

BASE MODEL INCLUDES:

- Durable steel enclosure
- Posiflex All-in-One PC / LCD
 - Intel Celeron J1900 Bay Trail Processor, 2.0 GHz
 - 21.5" PCAP touchscreen
 - Integrated dual amplified speakers
