

DYNAMIC DIGITAL COMMUNICATIONS

DIGITAL SIGNAGE PACKAGE

nanonation

In this time of changing environments delivering information is critical. Portable digital signage solutions are an excellent way to get ever changing information to the right locations in real time.

Nanonation recognizes the challenges many facilities are facing as they have to adjust policies, wayfinding directions, and manage flow of visitors. We are prepared to help deliver these critical messaging needs and are offering content creation services at no cost along with special dramatically reduced software licensing and hosting costs to organizations affected by the COVID-19 situation.

This five unit package includes everything needed to deploy a dynamic and portable digital messaging system at your facilities. Each unit includes a 43" display with attached digital media player, mounted to an adjustable rolling cart with locking wheels. The system connects to your network wirelessly (or wired) allowing it to be updated from anywhere, including by remote team members. Playlists of images, videos and even links to real time web resources can all be displayed.

INCLUDED IN PACKAGE

- 5x 43" Commercial Grade Displays
- 5x 1080p Digital Media Players (Wired/Wi-Fi Capable)
- 5x Rolling Stands or Wall Mounts (your choice)
- All software and hosting services for one year

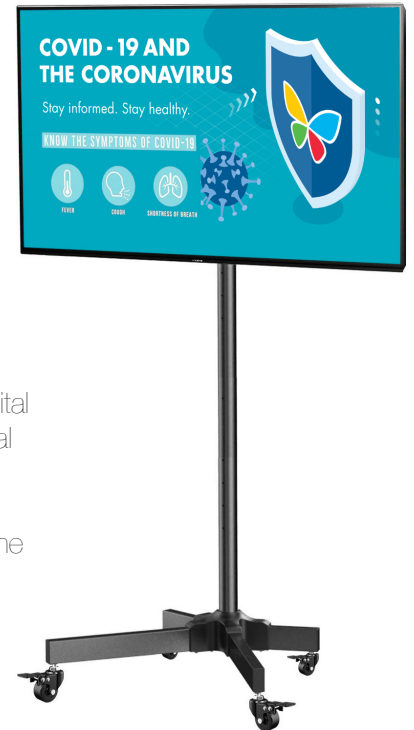

INCLUDED IN PACKAGE (ALL COSTS WAIVED)

- New account setup
- Content Management Training
- Player Setup & Staging
- 3 Custom Static Image Content Spots

PACKAGE COST: \$9850 for all 5 units + shipping

ADDITIONAL OPTIONS

Each Additional Unit: \$1,970
Additional Custom Content Spot: \$330
Each Custom Animation Spot: \$660

FEATURES

- Easily schedule content from any web browser
- Content runs locally on player even if internet connection is lost
- Target content by screen or groups of screens
- Divide the screen into multiple zones
- Supports JPG, PNG, MP4, MOV, Webpages, and many other common formats
