

22MILES SMART RETAIL SOLUTION

Shoppers today have a higher sense of urgency for quick purchases, access to promotions, and to have a more thoughtful shopping experience. 22MILES platform facilitates the kind of experiential and intuitive shopping that drives bottom-line sales. The multimedia communications software seamlessly blends all digital media devices for an engaging visual and a dynamic, user-friendly interface. Our platform leverages kiosk to video walls and quick Web/HTML or SDK based mobile applications to engage shoppers and increase in-store revenue purchases. This will put the final touches on an immersive retail shopping experience, that will engage consumers across all verticals.

22MILES Unique Retail Features and Applications
