FAQ Feb 3, 2022

Q: How "tried and tested" is this technology?

A: The technology has been developed over the last 10 years. We have processed 120 Million identities digitally all over the world.

=====

Q: What are the client PC requirements?

A: Any cloud-enabled terminal from Raspberry Pi to standard PCs with standard camera

=====

Q: What are the costs involved?

A:

1. Enrollment \$1.50 (ID + selfie, Match selfie to ID photo, Liveness detection, Tamper detection, OCR data, Barcode reading)
2. AML, KYC Sanctions lists \$1.5 (Optional)
3. Criminal and Sex offender background Check \$ 1.5 Optional)

InstantID Identification stations

Model 1: Few cents (\$ 0.05 or less) per identification

Model 2: \$100 per InstantID station per month - unlimited identifications

=====

Q: Legal considerations?

A: No - this is specifically an opt in program. We are not identifying people without consent

=====

Q: What is the effective range and target zone of a typical camera (how about someone below the camera in a wheelchair)

A: Range is 3' to 8'. Tablets/WebCams can be easily tilted for wheelchairs etc.

=====

Q: What about HIPAA or recognition thru sunglasses?

A: Is not currently HIPAA-compliant and in some cases sunglasses do cause problems
