# Boca Systems
Wristband and Badge Printers
for Healthcare

BOCA invented direct thermal ticket printers 40 years ago.
For healthcare, our printers provide significant cost savings and efficiencies.

Lemur

Badge Printing
BOCA's badge printers are available in 300dpi and 600dpi resolution and print badges in 1-2 seconds.

300DPI   **600DPI**

BOCA Benefits
- Cost savings (see Case Study ⟶).
- Print speed: 1 to 2 seconds per document.
- Durability: 20+ years.
- Made in the USA.
- Optional Features: RFID encoding, and Bluetooth/WiFi/Ethernet.

Wristband Printing
BOCA's new Lemur-CS model can hold a 5.25" diameter roll of wristbands and does not require proprietary wristband cartridges.

Lemur-CS

Case Study
BOCA wristband printers were recently deployed at hospitals in Europe and the Middle East.

- **Problem:** high operational costs, as their printers required the use of a proprietary wristband cartridge.

- **Solution:** the hospital purchased BOCA printers along with BOCA wristband stock. The BOCA wristbands were **1/3 of the cost** of the previously used cartridge wristband.

Contact: please visit us at HIMSS #3165 where we can discuss how BOCA's wristband and printer solutions can save costs and improve operations.
